Zeeshan Ahmad

Full-Stack Developer | Laravel · React.js · Next.js · Node.js · AWS

Lahore / Islamabad, Pakistan | +92 306 9660059 | zeeshanrao11111@gmail.com | linkedin.com/in/rao-zeeshan-ahmad-8286521a0

PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years of experience designing, building and deploying production web applications. Strong in PHP/Laravel and modern JavaScript (React.js, Next.js, Node.js), with hands-on cloud experience on AWS (EC2, SSM, IAM roles, Lambda) and containerised delivery with Docker. Experienced in integrating AI into products and workflows through Claude Code and LLM APIs, and in automating business processes with n8n and serverless functions. Delivers clean, maintainable, scalable code, works well with clients and teams, and mentors junior developers.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, AJAX

Backend: PHP, Laravel, Laravel Filament, CodeIgniter 4, Node.js, Core PHP, phpBB, RESTful API design

Databases: PostgreSQL, MySQL, SQL Server, MongoDB

Cloud & DevOps: AWS EC2 server setup & deployment, AWS Systems Manager (SSM), IAM roles & policies, OIDC federation, AWS Lambda, Docker (images & containers), Git CI/CD pipelines, Linux servers, Git

Testing: Unit testing, automated test runs in CI pipelines

AI & Automation: Claude Code AI integration, LLM / AI API integration, n8n workflow automation, serverless automation with AWS Lambda

Integrations: Stripe, PayPal, Google APIs, third-party REST APIs and webhooks

PROFESSIONAL EXPERIENCE

Full-Stack Developer | *5+ years of professional experience*

- Gathered requirements with clients and converted them into actionable development plans, sprint tasks and delivery timelines.
- Built and shipped full-stack web applications end to end, including a Loan Management System and a Booking Management System, using Laravel and CodeIgniter.
- Delivered React.js, Node.js and Express applications, including the Pros & Cons marketing website.
- Developed responsive, component-based front ends with React.js and Next.js, backed by Node.js and Laravel REST APIs.
- Deployed and managed applications on AWS EC2, using IAM roles for secure, least-privilege access and AWS Systems Manager (SSM) for remote server management without open SSH access.
- Built Git-based CI/CD pipelines that run unit tests and deploy automatically, authenticating to AWS through OIDC instead of long-lived keys and using SSM for deployment commands.
- Containerised applications with Docker, building images and running containers for consistent development, testing and production environments.
- Integrated AI into development and product workflows using Claude Code and LLM APIs to speed up delivery and add intelligent features.
- Designed and automated workflows with n8n and AWS Lambda, connecting APIs, webhooks and third-party services to remove manual work.
- Integrated Stripe and PayPal payment gateways, Google APIs and other third-party REST APIs.
- Scaled systems while maintaining backward compatibility for APIs; monitored and continuously improved pages and functionality.
- Took part in design discussions and sprint planning, wrote maintainable, extensible code in a team environment using Git, and mentored junior developers.

SELECTED PROJECTS

InvestNext | www.investnext.com
Real estate investment management platform for syndicators and fund sponsors: capital raising, investor portal and CRM, waterfall distributions with ACH payments, compliance/KYC, cap table and documents, plus AI (MCP) access to fund data. Worked on the application with automated delivery and secure AWS deployment.
Tech: *PostgreSQL, Git CI/CD pipelines, OIDC (keyless AWS auth), AWS SSM, unit testing, AWS*

Otoz.ai | otoz.ai/en
AI-powered online marketplace for buying used cars across borders, mainly from Japan, with live inventory, online auction bidding and AI-based smart matching for individual buyers and dealers worldwide.

Pros & Cons | prosncons.co
Corporate website and web application for a marketing and PR agency serving the UAE, KSA and Qatar.
Tech: *React.js, Node.js, Express*

Zippys.shop | zippys.shop
E-commerce shopping store with product catalogue, cart and checkout, and online payment gateway integration.
Tech: *Core PHP, MySQL, Payment Gateways, jQuery, Bootstrap*

Grand Blue | grandblueproject.com
Responsive business website with a custom-built backend and admin modules.
Tech: *Laravel, MySQL, Tailwind CSS, JavaScript, AJAX*

Loan Management System | as-lend.leadconcept.online
Web system for managing loan applications, borrowers, repayments and reporting.
Tech: *Laravel, MySQL, AJAX, JavaScript, jQuery, HTML, CSS, Bootstrap*

MDesign Architecture | www.mdesignsarchitects.com
Portfolio website for an architecture firm, showcasing completed projects and services.
Tech: *Laravel, MySQL, AJAX, JavaScript, jQuery, HTML, CSS, Bootstrap*

LeadConcept
Business platform with complete backend and frontend modules.
Tech: *Laravel, MySQL, AJAX, JavaScript, jQuery, Bootstrap*

Trislogic
Web application with complete backend and frontend modules.
Tech: *Laravel, MySQL, AJAX, JavaScript, jQuery, Bootstrap*

EDUCATION

BS Information Technology 2020
University of Education Lahore (Multan Campus)
